

BUSINESS ADMINISTRATION – FINANCE TRACK

What is Finance? (from <http://www.uncwil.edu/stuaff/career/Majors/finance.htm>)

“Finance studies and addresses the ways in which individuals, businesses and organizations raise, allocate and use monetary resources over time, taking into account the risks entailed in their projects. The term finance may thus incorporate any of the following: the study of money and other assets, the management of those assets, and profiling and managing project risks. As a verb, "to finance" is to provide funds for business. Finance is the most encompassing of all business enterprises. To understand finance you must know about the entire business, indeed the entire economy.”

What are the career opportunities for a Business Administration – Finance Track Graduate?

How do you get ready? (from <http://career.utk.edu/students/majors.asp>)

- Quantitative skills are extremely important. Take additional courses in math, statistics and accounting.
- Many positions in finance require the ability to analyze and interpret data.
- Develop strong interpersonal and communication skills. Cultivate an eye for detail.
- Gain experience through internships, summer and part-time positions.
- Read the Wall Street Journal and other financial news magazines to stay abreast of current events and to learn more about the industry.
- Join student professional associations in the field of finance.
- Several professional designations and licenses, e.g., Chartered Financial Analyst or Certified Financial Planner, are available to finance professionals working in a particular area. Earning these designations may help one obtain advanced positions.

Related Major Skills (from <http://www.uncwil.edu/stuaff/career/Majors/finance.htm>)

Reading comprehension	Active listening	Writing & speaking skills
Mathematics	Critical thinking	Active learning
Monitoring	Give advice On finances	Plan & administer budgets
Examine financial records	Prepare financial reports	Prepare/organize records
Process data-computers	Computer skills	

What about the future? (from <http://www.bls.gov/oco/>)

“Employment of financial analysts should grow faster than average for all occupations through 2014. Banks and mutual fund companies will need more financial analysts to recommend which stocks and bonds they should buy or sell. But competition is expected for jobs, because many people want them. Employment growth for financial managers is expected to be about as fast as the average for all occupations. However, applicants will likely face strong competition for jobs. Those with a master’s degree and a certification will have the best opportunities.”
